Haluan lisäksi, että työpaikkailmoituksessa mainitaan seuraavat asiat:	R.N. Medical Consultants is a small clinical research consulting company, which conducts and oversees trials on behalf of pharmaceutical and medical device companies, both in Finland and in the international domain. We are a young and highly ambitious team with an office based in Viikki, Helsinki and are currently looking to onboard a new CRA Assistant.

Above and beyond these criteria we want a natural learner who is highly motivated to succeed in this promising industry and aspires to grow with us as a team. As we are working on several projects simultaneously, we require an applicant who is highly organized, and knows how to manage and prioritize their time effectively. Since we work on international studies, we require that applicants speak fluent English and Finnish. Swedish is a big bonus.
